

Technical characteristics

Panel dimension
2440 x 1220 mm.

Regardless of whether factory or site cut, due to our patented technology the edges of Parklex Facade require no further treatment. In use, specific maintenance is unnecessary, apart from general cleaning.

Surface characteristics

Smooth. Traditional Parklex finish. Reveals the simple, natural beauty of the wood it is manufactured with.

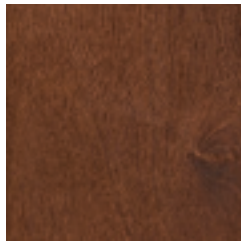

Finish range

Ambar

Antra

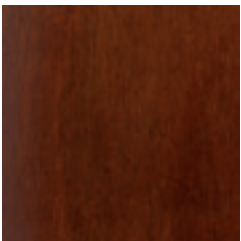

Bronze

Copper

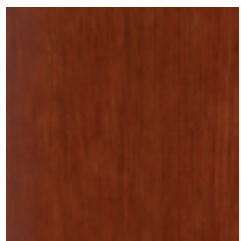

Gold

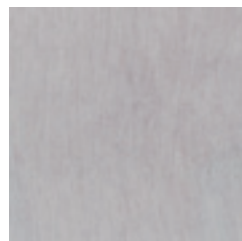

Onix

Quartz

Rubi

Silver

Parklex is manufactured from fine timber veneers, therefore the colour and grain of different batches will exhibit natural variations. Due to the limitations of printed media, the finishes printed in this catalogue are merely an approximation of their real color. For this reason, before placing any order, Parklex recommends consulting our sales personnel to request actual samples.
