aluminium shiplap panels

VIVALDA now manufacture and supply aluminium panels designed to replicate traditional shiplap with the heightened performance of lightweight aluminium panels.

## cut-to-size™

Grooves are spaced at 100mm centres (both horizontal and vertical are available) and are supplied cut-to-size™ using our in house fabrication facilities.

## unlimited colour

Alulap panels can be powder coated in any RAL or BS colour using our group powder coating facilities.

## panel use

Suitable for use on curtain walling, door infills and window infills.
