VIVALDA

Project: Vyners School, Uxbridge

in brief

Vyners School

Materials Supplied:	650m^2 8mm Ceramapanel in Burnt Orange, Fired Clay, Paprika
Fixing System:	Mechanical Secret Fix
Main Contractor:	Middlesex Facades
The Project:	The project's location was semi-rural as part of the current school grounds are in parkland. The Ceramapanel cladding system was installed onto Nvelope's NV3 hidden fixing system which allowed the cement boards to hang from horizontal rails. The dark tanned coloured panels allowed for the new school to reflect parts of the existing school.
